

CSK6-YKW

Information:

CSK Series electromagnetic counter are used in Recording the total times of electronic pulse signal, and it's widely applied in the counting area of petrol, industry, textile, mechanism, national defense, agriculture , food, printing, and etc. the features are new construction ,high precision, long life, stable performance ,widely use, and easy operation.

Technical Specification

Model	CSK6-YKW
Rated Voltage	DC12V,DC24V,DC110V,AC110V, AC220V
Count range	0-999999
Count speed	DC:20cps, AC: 10cps
Number of digits	6 digits
Power consumption	DC:1.5W AC:2VA
Reset method	Manual reset (with lock)
